

Free Video Tutorial

 WhosTheVoss.com

This build requires a piece of 2x12 that is 4 foot long. Mark the lines using the provided video plans.

You can connect Spot C to either Spot A or B, both provide a different look.  
Remove the gray sections

You can use a torch to darken the material before painting; I like that look.

Cut out the stairs provided, using a removable glue stick. You can also purchase a stencil, or find foam star stickers to cover the wood when painting the blue.
